

Equine Health & Complementary Therapies

PROGRAM DESCRIPTION

Equine Health & Complementary Therapies Program

The Equine Health and Complementary Therapies Program focuses on the health care component of the horse industry. The program was developed to meet the industry demand for qualified horse care technicians.

Students will develop skills in traditional health care such as nutrition, anatomy and physiology, broodmare and foal management, and non-traditional complementary therapies.

In addition to traditional health care, Hocking College's program includes the disciplines of equine massage and acupressure. This unique component teaches students proper massage techniques for applying pressure to and kneading muscles that are prone to fatigue and stress. Hocking College is the only two-year college to offer instruction and a certificate in equine massage upon completion of the program.

PLACES OF EMPLOYMENT

Examples of places where Hocking College alumni have worked or are currently working include the following:

Crum Veterinary Services • Thoroughbred Recovery Center
New Vocations • Purina • Autumn Trail Stables Therapeutic
Riding Center • The Wilds
