

# Farrier Science & Business

## PROGRAM DESCRIPTION

### Farrier Science & Business Program

Hocking College offers the only farrier science associate degree programs in the state of Ohio. The Farrier Science and Business program offers a unique combination of farrier skills and business management. Students will learn how to correctly trim and balance the horses hooves for proper foot function.

Students will learn the science of the equine hoof and lower limb, as well as the newest and safest techniques for shoeing horses using gas forges. This program covers corrective farrier skills as well as shoeing for performance. Classes such as horse handling and management, health and equine nutrition provide students with a solid background in horse care. As part of your learning experience, our farrier students also service outside clients.

Since many farriers are self-employed, the business portion of this program provides students with not only basic business skills such as management and accounting, but also marketing development and business skills specific to the equine industry.

## PLACES OF EMPLOYMENT

Examples of places where Hocking College alumni have worked or are currently working include the following:

**Knotts Farrier Service • Self-Employed Farrier**

## ALL-INCLUSIVE PRICING

Hocking College offers all-inclusive pricing and works with students to assure they have complete college funding, including financial aid, before they start classes. All-inclusive pricing includes the following:

### PER SEMESTER

\$300.....Learning Fee

\$20.....Health Center Services

\$75.....Career Center Services
