

# Parks & Museum Education

### **PROGRAM DESCRIPTION**

#### Parks & Museum Education Program

The Parks and Museum Education Program at Hocking College has become renowned for training experienced, confident and talented educators. Students in the program will be trained to educate others about the environment and human connections to it.

Classes use the backdrop of Southeastern Ohio to extract stories of interest in the natural world and the history of nearby areas. Emphasis is placed on practical experience, leading programs with groups of all kinds,

exhibit design and development of interpretive sites. Students will also receive unique training in researching and developing living history subjects and techniques.

Hocking Woods Nature Center provides students the opportunity to work with captive wildlife, including raptors and reptiles. We even have a planetarium for learning and teaching about astronomy and night interpretation. Robbins Crossing is a collection of authentic log homes that allows students to practice "living history" presentations in period clothing, designed to engage visitors in the skills and lifestyles of the past including blacksmithing, wood stove cooking and woodworking.

## PLACES OF EMPLOYMENT

Examples of places where Hocking College alumni have worked or are currently working include the following: National Parks Service • State Parks • Conner Prairie • Aquariums • Zoos
