

Physical Therapist Assistant

PROGRAM DESCRIPTION

Physical Therapist Assistant Program

Physical therapist assistants are healthcare providers who work under the supervision of a licensed physical therapist to restore function when disease or injury results in pain and limited movement.

Physical therapy intervention can also prevent further injury. When a patient seeks physical therapy services, the physical therapist performs an initial evaluation and develops a plan of care. The physical therapist assistant carries out the plan of care and reports the patient's response to the supervising physical therapist.

ACCREDITATION

The Physical Therapist Assistant program at Hocking College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE)

DEGREE TRACK

The listed degree track is for students beginning classes in May 2022 who will pursue an Associate of Applied Science in Physical Therapist Assistant.

The Physical Therapist Assistant program is a selective admissions program. Students are accepted into the Associate of Science program and are required to completed courses listed under Autumn 1 prior to receiving acceptance into the PTA program.

The AS program is a pathway to the selective admission program and allows the student to complete general education requirements. Upon successful completion of all selective admission requirements and acceptance into the technical/clinical portion of the program, the student's academic program will be changed to selective admission program.
