

# Wildlife Resources Management

### PROGRAM DESCRIPTION

#### Wildlife Resources Management Program

The Wildlife Resources Management Program at Hocking College is a hands-on, experience-based curriculum where students actively learn and practice field skills which include wildlife, fish and plant field and lab identification; wildlife field data collection techniques such as survey, capture, radio telemetry, habitat and population sampling; and other general field skills such as GPS-GIS duties, map-making and natural resources equipment operation.

In addition, students leave the program with a strong conceptual understanding of wildlife management, ecology, and conservation, as well as botany and plant ecology and identification, and natural resources as a whole.

The Wildlife Resources Management degree is designed for students interested primarily in seeking employment in fish and wildlife careers after acquiring their two-year associate degree. Most positions with county and state parks, and the Ohio Division of Wildlife, require a two-year wildlife degree.

## PLACES OF EMPLOYMENT

Examples of places where Hocking College alumni have worked or are currently working include the following:

Ohio Department of Natural Resources - Division of Wildlife

#### **ALL-INCLUSIVE PRICING**

Hocking College offers all-inclusive pricing and works with students to assure they have complete college funding, including financial aid, before they start classes. All-inclusive pricing includes the following:

#### PER SEMESTER

\$300.....Learning Fee

\$20......Health Center Services

\$75......Career Center Services

Not Included in the All-Inclusive Pricing

\$53.....Parking

Pricing for housing and meal plans can be found at hocking.edu/residence-halls.

## **DEGREE TRACK**

2024/2025 Academic Year.
